

Chapter IV INSTRUCTORS

Section 1. **Instructor/Student Ratio.** At least one licensed instructor must be present on the school premises at all times students are present. There shall be no more than twenty (20) students present for each instructor. Of the twenty (20) students permitted per instructor, no more than three (3) shall be student instructors.

(a) If a school offers, in addition to the full cosmetology course, separate manicuring/nail technology and/or esthetics courses, one additional instructor shall be required for each separate course offered.

(b) If the school has a total enrollment of twelve (12) students or less, one instructor is allowed to instruct no more than two (2) separate courses. If a third course is offered a separate instructor will be required. Hairstyling students will be included with the total number of cosmetology students.

Section 2. **Practice by Instructors.** No one actively engaged in teaching cosmetology shall practice cosmetology in the school except as is absolutely necessary for instructional purposes. Practice in a salon on one's own time is not prohibited.
